

Years 10 & 11 Homework Guidance

Students in Years 10 and 11 will be set homework according to curriculum time allocated to each subject.

As a school we hold the importance of reading as a priority. We encourage all students across all years to read for 20 minutes a day. This could be at home or in iResearch during break, lunch or after-school.

The table below indicates the suggested amount of home learning per subject.

Key Stage 4 Subject	Time duration
Maths	90 minutes per fortnight
English	90 minutes per fortnight
Science	90 minutes per fortnight
Option Subjects	90 minutes per fortnight
Literacy/Reading expectation	20 minutes every day
Daily expectation	60-75 minutes a day + reading

Additional Notes

- Key Stage 4 class teachers will decide upon the day that classes will be issued homework. This will be explained and advertised to students clearly. However, staff may set work outside of set days to suit the subject Curriculum Map.
- During NEA/Coursework completion windows, students should use their allocated homework time to focus on individually chosen aspects of their work.
